Professional Summary

I'm a Web Developer skilled in **React.js, JavaScript, Mysql ,DBMS , Express js , Node js, REST APIs, and responsive web development**. Experienced in building scalable web applications, integrating APIs, and developing real-world projects including ERP systems and full-stack platforms. Strong problem-solving skills with hands-on experience in frontend-backend integration and performance optimization.

Technical Skills

- **Languages:** C, C++, Java, JavaScript
- **Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Responsive Design
- **Backend & Database:** Node.js, Express.js, REST APIs, JWT Authentication, MySQL
- **Tools:** Git, GitHub, VS Code, Netlify, Railway
- **Core Skills:** API Integration, Debugging, State Management, Team Collaboration

Experience

Frontend Developer

Nov 2025 – May 2026

Swiftsence Consultancy

- Built responsive frontend interfaces using React.js with REST API integration and real-time backend communication.
- Developed dashboards, forms, and reusable UI components while improving application responsiveness.
- Worked with backend teams to debug authentication, validation, and API-related production issues.
- Used Git and GitHub for version control and collaborative development workflows.

Projects

Moviefy – Full Stack Movie Streaming Platform

React.js, Node.js, Express.js, MySQL

- Developed a full-stack movie platform with authentication, watchlist system, trending movies, and dynamic movie detail pages.
- Integrated external movie APIs to display **1000+ real-time movie records** with responsive UI and optimized performance.
- Implemented JWT authentication, search filtering, category recommendations, and reusable React components.
- Managed deployment, backend API integration, database connectivity, and production-level debugging.

ERP Management System

React.js, REST APIs, Tailwind CSS

- Developed responsive ERP dashboards, forms, and real-time data tables for workflow and employee management.
- Integrated secure REST APIs using Axios and optimized frontend rendering for improved usability.
- Built reusable UI components and collaborated with backend developers for authentication and validation handling.

Sadashive Construction Website

React.js, Tailwind CSS

- Designed a responsive business website with service showcase sections, project galleries, and contact forms.
- Improved user engagement through mobile-friendly layouts and optimized UI performance.

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

Deen Dayal Upadhyay Gorakhpur University

Class 12th – U.P. Board

2023

Class 10th – U.P. Board

2021

Achievements & Certifications

- 1st Position – Tech Yuva Competition (Web Application Category)
- 3rd Position – HackerRank Coding Competition (College Level)
- Frontend Development Certification from OneRoadmap
- Published Research Paper: "Web Technologies – PWA (Progressive Web App)" (2024)
